INTRODUCTION AND CUSTOMER INFORMATION

TO THE CUSTOMER,

The part numbers in this part manual were correct at the time of this manual published. It is our policy to constantly improve our machines and therefore, part numbers may change. When ordering parts, Please verify part numbers through Telcon Dealer or Telcon office.

The prices indicated in the manual are given only for estimation purpose and are subject to change without prior notice. For procurement, prices applicable of required parts must be reconfirmed from the supplier.

Any Errors or omissions and User's Queries should be referred to:

The Product Support Manager,
Telcon Service And Spares Support Centre,
Telcon PIP - 3, Garag Road , Mummigatti
Dharwad – 580007.
Karnataka State

(SPECIFICATIONS AND DESIGN SUBJECT TO CHANGE WITHOUT NOTICE.)

MEMORANDUM

The Machine Owned by you has been specially manufactured to suit your exact requirement using various hydraulic aggregates as per your machine purchase order.

It is therefore, necessary for you to mention correct machine details as specified below, while ordering parts on TELCON.

MACHINE MODEL	EX 200 LC
MACHINE SL.NO.	2001-
ENGINE MODEL	Cummins 6BT 5.9C
ENGINE SL.NO.	

Kindly ensure that above details are furnished in your future correspondence.

FOREWORD

This parts manual show the components of EX 200; Hydraulic Excavator.

The numerical Part Number Index is provided at the end of this Parts Manual.

This Parts Manual contains the most recent information available at the time of printing, and the contents of the list are based on information in effect at the time and subject to change without notice.

The reference in the part manual of "LIFT" "RIGHT" "Front" & "REAR" are identified as follows.

The driver's seat is positioned "LIFT" side, and the opposite is "RIGHT". The front-end attachments are at the "FRONT". The counterweight is attached at the "REAR" for the undercarriage, the travel motor is at the "REAR", and the opposite is "FRONT".

For the Engine Parts, please refer to Cummins 6BT Engine Parts Manual supplied separately.

HOW TO ORDER PARTS

When ordering parts, please specify the following items as shown in the following example,

(Examples)

- | | | |
|----------------------------------|---|--|
| 1) Mode of Machine (EX200) |  | Shown on Name – Plate provided on MAIN FRAME |
| 2) Machine Serial No (2001-XXXX) | | On the lower right side of CAB |
| 3) Part No (A810165) |  | Ordering Parts |
| 4) Part Name (O-Ring) | | |
| 5) QTY (2) | | |
| 6) Purchaser's name And Address | | Ordering Qty |

Direction Arrow: Arrows are used with illustration to indicate the front of the unit. "Right Hand" & "Left Hand" sides of the Loader Attachment Parts are determined by facing in the direction of machine forward Travel.

HOW TO USE THE PARTS MANUAL

ITEM	: Item No. shows the Reference No. on the machine illustration
PART NO	: Part Number consists of a letter of the alphabet and numerical or numerical only.
PART NAME	: Components of an assembly part are shown with "." Marks and are shown on the line or lines below the assembly part. Also, if the components with "." mark consist of further components, these further components are shown by the marks ".."
QTY	: QTY shows the quantity used for one machine. However, quantity of components shows the quantity for one assembly part.
SERVICE CODE	: Abbreviations in the column of service code with their meaning are given below; W: The part with this abbreviation requires some work on it before installing on the machine. H: It is a precision part. Please ask the authority for its repairing. D: The part with this abbreviation is a component of an assembly and is not available independently. The assembly containing this part should be ordered. K: This means that part is contained in the service Parts kit. R: The part with this abbreviation shows that quantity of the part is changed depending upon the machine, such as an adjusting shim, etc., OP: Optional parts OS: Over-sized parts US: Under-sized parts (NOTE: Part with abbreviation "OS" or "US" is described on the line below the Standard-sized part.) # The part with these marks is newly added on that page of the equipment.
SERIAL NO:	Applicable Machine Serial No. for the part is shown in this column. Further, above this column, the Serial No. shown is applicable for all parts described on that page. Consider this serial number in case no serial number is mentioned against the part number. If the abbreviation "H" is described as headed letter, it means the Serial No. of Hydraulic Equipment such as Pump, Motor, Control Valve etc.

ICA shows the interchangeability between the original and the improved parts. Abbreviations used in this column are as follows:

I: Part No. in the column of "Replaceable Part" can be used instead of this part but not vice versa.

P: This should not be used; instead, the Part No. in the column "Replaceable Part" should be used.

T: Part Nos. as those in the column of "Replaceable Part" can be used as an assembly instead of this part.

Y: This part and the part in the column of "Replaceable Part" are interchangeable.

REPLACEABLE PART: Interchangeable Part Nos. and their required quantity are
Shown in this column.

NOTE: If interchangeable improved parts are provided for the parts which
You may order, improved Parts classified as "I", "P", "T", or "Y" may
Be supplied.
